## DUAL BEAM WIRING DIAGRAM BI-XENON KIT

- 1 HID ballast
- 2 Relay harness
- 3 Igniter
- 4 HID bulb
- 5 AMP connectors

# Click to enlarge

⊖ Negative ballast | ground

\* The shortest relay's wire with the ballast feed should be connected on the battery's side

This diagram is applied to all Bi-Xenon kits and the only difference between them is the connector to the factory harness.
